Volumes 197, 198

PREFACE	1
PETER LANCASTER (Calgary, Alberta, Canada), ALEXANDER S. MARKUS (Beer Sheva, Israel), AND QIANG YE (Winnipeg, Manitoba, Canada) Low Rank Perturbations of Strongly Definitizable Transformations and Matrix Polynomials	3
DRAGOMIR Ž. DOKOVIĆ (Waterloo, Ontario, Canada), AND CHI-KWONG LI (Williamsburg, Virginia) Overgroups of Some Classical Linear Groups With Applications to Linear Preserver Problems	31
M. J. C. GOVER (Bradford, West Yorkshire, England) The Eigenproblem of a Tridiagonal 2-Toeplitz Matrix	63
ALEXANDER KOVAČEC AND ANA PAULA SANTANA (Coimbra, Portugal) A Combinatorial Theorem on the Cartan Invariants of the Schur Algebra $S(B^+)$	79
B. BECKERMANN AND G. MÜHLBACH (Hannover, Germany) A General Determinantal Identity of Sylvester Type and Some Applications	93
TSUYOSHI ANDO (Sapporo, Japan) AND FUMIO HIAI (Mito, Ibaraki, Japan) Log Majorization and Complementary Golden-Thompson Type Inequalities	113
M. GASCA AND J. M. PEÑA (Zaragoza, Spain) A Test for Strict Sign-Regularity	133
RUSSELL MERRIS (Hayward, California) Laplacian Matrices of Graphs: A Survey	143
MARIA ANTÓNIA DUFFNER (Lisboa, Portugal) AND G. N. DE OLIVEIRA (Coimbra, Portugal) Pairs of Matrices Satisfying Certain Polynomial Identities	177
RAPHAEL LOEWY AND NIZAR RADWAN (Haifa, Israel) Spaces of Symmetric Matrices of Bounded Rank	189
KURT J. REINSCHKE (Dresden, Deutschland) Graph-Theoretic Approach to Symbolic Analysis of Linear Descriptor Systems	217
RAJENDRA BHATIA (New Delhi, India) Matrix Factorizations and Their Perturbations	245
JOÃO FILIPE QUEIRÓ (Coimbra, Portugal) An Inverse Problem for Singular Values and the Jacobian of the Elementary Symmetric Functions.	277

Table of Contents continued

AXEL RUHE (Göteborg, Sweden)	
Rational Krylov Algorithms for Nonsymmetric Eigenvalue Problems.	
II. Matrix Pairs283
Å. BJÖRCK (Linköping, Sweden)	
Numerics of Gram-Schmidt Orthogonalization297
CHI-KWONG LI (Williamsburg, Virginia) AND MARIA EMÍLIA MIRANDA (Coimbra, Portugal)	
Antidiagonals of Matrices in a Unitary Similarity Orbit317
MIROSLAV FIEDLER (Praha, Czech Republic)	
Elliptic Matrices With Zero Diagonal337
EDUARDO MARQUES DE SÁ (Coimbra, Portugal)	
Faces and Traces of the Unit Ball of a Symmetric Gauge Function349
R. B. BAPAT AND A. K. LAL (New Delhi, India)	
Inequalities for the q -Permanent397
NATÁLIA BEBIANO, ALEXANDER KOVAČEC, AND JOÃO DA PROVIDÊNCIA (Coimbra, Portugal)	
The Validity of the Marcus-de Oliveira Conjecture for the Essentially Hermitian Matrices411
EDUARDO MARQUES DE SÁ (Coimbra, Portugal)	
Exposed Faces and Duality for Symmetric and Unitarily Invariant Norms429
EDUARDO MARQUES DE SÁ (Coimbra, Portugal)	
Faces of the Unit Ball of a Unitarily Invariant Norm451
M. C. GOUVEIA (Coimbra, Portugal)	
Group and Moore-Penrose Invertibility of Bezoutians495
J. J. McDONALD (Madison, Wisconsin)	
A Product Index Theorem With Applications to Splittings of M -matrices511
DANIEL ALPAY (Beer-Sheva, Israel), JOSEPH A. BALL (Blacksburg, Virginia), ISRAEL GOHBERG (Tel-Aviv, Israel), AND LEIBA RODMAN (Williamsburg, Virginia)	
J -Unitary Preserving Automorphisms of Rational Matrix Functions: State Space Theory, Interpolation, and Factorization531
M. ANTÓNIA DUFFNER (Lisboa, Portugal)	
Linear Transformations That Preserve Immanants567
M ^a ASUNCIÓN BEITIA AND ION ZABALLA (Vitoria-Gasteiz, Spain)	
Invariants of the Block Tensor Product589

Table of Contents continued

GEORG HEINIG AND FRANK HELLINGER (Leipzig, Germany)	
Displacement Structure of Pseudoinverses623
H. BART (Rotterdam, the Netherlands) AND V. E. TSEKANOVSKII (Buffalo, New York)	
Complementary Schur Complements651
GORDON JAMES (London, England)	
Hecke Algebras and Immanants659
THOMAS J. LAFFEY AND ROBERT REAMS (Dublin, Ireland)	
Integral Similarity and Commutators of Integral Matrices671
JIANG ERXIONG (Shanghai, China)	
Bounds for the Smallest Singular Value of a Jordan Block With an Application to Eigenvalue Perturbation691
FERNANDO C. SILVA (Lisboa, Portugal)	
On the Number of Invariant Polynomials of Partially Prescribed Matrices709
BISWA NATH DATTA (DeKalb, Illinois)	
Linear and Numerical Linear Algebra in Control Theory: Some Research Problems755
J. A. DIAS DA SILVA (Lisboa, Portugal)	
REPORT: Second Conference of the International Linear Algebra Society (Lisbon, 1992)793
AUTHOR INDEX847
